

A note for Preservation Properties

Prepared for Preservation Properties, Newton · September 16, 2026

WHO WE ARE

We are a small operational support studio. Real estate is not new to us, we built the website, content, and AI systems behind Real Cavalry, a San Antonio brokerage, ran a two-year marketing partnership with a Texas real estate investment firm, and built the email and CRM systems behind a real estate closing company. That is the same work we would bring here: the content, the follow-up, and the systems that keep a pipeline warm between closings.

WHAT WE NOTICED ABOUT PRESERVATION PROPERTIES

You are already doing real things well:

- Serving Newton since 1983 across sales, consulting and leasing of fine properties, with a clear point of view: more people buy at market value than above or below it.
- A firm that visibly gives back, supporting Habitat for Humanity and The Nature Conservancy.

Where we see the fastest room to grow:

- The homepage still says Celebrating our 33rd Year, beside since 1983. That makes this your 43rd year, so the site copy has not been updated in about a decade, and the footer reads 2025.
- There is no blog and no email signup, so the local market knowledge the site talks about never reaches a buyer searching for Newton.

WHAT WE WOULD DO FIRST

Refresh the homepage so it tells the true 43 year story, then add a short monthly Newton market note with a signup. The history is the strongest thing you have and right now the site undersells it by ten years.

THE SIMPLEST NEXT STEP

A short call, no pitch deck required, just to see if this is a fit. You can also see exactly how we work, and the real estate systems we have already built, at balaynibruno.co/real-estate-agent-marketing.html.
