

TOOLS & CAPABILITIES

The real toolbox behind *your* *partnership*

Every Balay ni Bruno & Co. partnership runs on a real, working set of tools. Some are our own AI team members. Some are the same platforms the biggest companies use. We put them together so you get the work done, without learning any of it yourself. Here is the honest list, grouped by what it does for your business.

What's inside

1. Your AI Team	10 tools
2. Websites & Web Apps	6 tools
3. Social Media & Content	4 tools
4. Video & Audio	4 tools
5. Graphic & Brand Design	5 tools
6. Online Stores (Shopify)	2 tools
7. Customer Data, CRM & Email	3 tools
8. Automation & Research	4 tools

01 Your AI Team

A family of AI specialists, each trained for one job.

We built a team of AI helpers, each one good at a single thing. They do not replace the people in your partnership. They make the people faster, so more gets done for you. Here are the main ones.

Brunz, the Head AI BUILT ON CLAUDE

WHAT IT IS	The brain that knows the whole business and keeps every other AI and task pointed in the right direction.
HOW WE USE IT	Brunz holds the full picture of your account, plans the work, and hands the right job to the right specialist.
FOR YOUR BUSINESS	Nothing falls through the cracks. One mind tracks everything that is happening for you.
FOR YOU, THE OWNER	You talk to one place and the whole team moves. No chasing, no repeating yourself.

Webby, the Website AI BUILT ON CLAUDE

WHAT IT IS	The specialist that builds, updates, and looks after websites.
HOW WE USE IT	Webby writes the pages, keeps them fast on phones, fixes things, and ships updates the same day you ask.
FOR YOUR BUSINESS	Your website stays current and professional without a developer on payroll.
FOR YOU, THE OWNER	You ask for a change in plain words. It is done in minutes, not weeks.

Mai, the Marketing AI BUILT ON CLAUDE

WHAT IT IS	The specialist that plans content and turns one idea into many posts.
HOW WE USE IT	Mai maps your content for the week, writes it in your voice, and reshapes one piece into a reel, a carousel, a blog, and an email.
FOR YOUR BUSINESS	You stay visible everywhere without making everything from scratch.
FOR YOU, THE OWNER	One idea becomes a week of content. You just approve it.

Sonny, the Social Media AI BUILT ON CLAUDE

WHAT IT IS	The specialist that writes posts the right way for each platform.
HOW WE USE IT	Sonny checks what is working right now and writes captions and hashtags made to fit Instagram, Facebook, TikTok, and the rest.
FOR YOUR BUSINESS	Your posts feel native to each app, which is what the apps reward.
FOR YOU, THE OWNER	You get ready-to-post captions. Copy, paste, done.

Vidz, the Video AI REMOTION + FFMPEG

WHAT IT IS	The specialist that produces video from a script, in-house.
HOW WE USE IT	Vidz builds finished videos from code, adds captions, cuts dead air, and pulls in stock footage.
FOR YOUR BUSINESS	You get a steady flow of video without paying per-video editing fees.
FOR YOU, THE OWNER	Video shows up done. You do not touch an editor.

Lana, the Lead Research AI BUILT ON CLAUDE

WHAT IT IS	The specialist that finds and researches potential customers for you.
HOW WE USE IT	Lana hunts for the right businesses or people, pulls their details, and hands a clean list to the team.
FOR YOUR BUSINESS	Your pipeline gets fed with real, researched prospects, not random names.
FOR YOU, THE OWNER	You get a list of who to talk to, already done for you.

Raphy, the Design AI CANVA + FLUX

WHAT IT IS	The specialist that handles graphics, photo edits, and brand visuals.
HOW WE USE IT	Raphy makes the images, cleans up photos, generates new visuals, and keeps everything on brand.
FOR YOUR BUSINESS	Your visuals look consistent and professional across everything.
FOR YOU, THE OWNER	You describe what you want. The image comes back finished.

Boogy, the Blog AI BUILT ON CLAUDE

WHAT IT IS	The specialist that writes long blog posts that help you get found on Google.
HOW WE USE IT	Boogy turns a video, an interview, or a topic into a full search-friendly article.
FOR YOUR BUSINESS	Your site earns search traffic over time instead of paying for every click.
FOR YOU, THE OWNER	You get blog posts written for you, in your voice, ready to publish.

Emy, the Email AI BUILT ON CLAUDE + BREVO

WHAT IT IS	The specialist that writes outreach, follow-ups, and newsletters.
HOW WE USE IT	Emy drafts the emails, sets up the follow-up sequence, and keeps your list warm.
FOR YOUR BUSINESS	Leads get followed up every time, which is where most sales are won or lost.
FOR YOU, THE OWNER	Your email keeps running even when you are busy with the actual work.

SHY, the Online Store AI BUILT ON CLAUDE + SHOPIFY

WHAT IT IS	The specialist that runs and updates online stores.
HOW WE USE IT	SHY connects to your store, audits it, fixes products and pages, and keeps it selling.
FOR YOUR BUSINESS	Your store stays clean, current, and easy to buy from.
FOR YOU, THE OWNER	You stop fighting with your store settings. You just ask for the change.

02 Websites & Web Apps

Fast, custom-built, and easy to change.

We hand-build websites and small web apps and host them where they load fast and update in seconds. No clunky page builder, no waiting weeks for a small change.

Custom-Coded Websites HTML, CSS, JAVASCRIPT

WHAT IT IS	Websites built by hand instead of dragged together in a template tool.
HOW WE USE IT	We write the code ourselves so the site is exactly what you need, with nothing slowing it down.
FOR YOUR BUSINESS	Faster pages and a site that does what you want, not what a template allows.
FOR YOU, THE OWNER	Your site feels custom because it is, and changes are quick.

Instant Hosting & Updates NETLIFY

WHAT IT IS	The service that puts your site online and pushes changes live almost instantly.
HOW WE USE IT	We host your site here so an approved change is live in about a minute, with the old version kept as a safety net.
FOR YOUR BUSINESS	Updates are fast and safe. If anything looks off, we roll back instantly.
FOR YOU, THE OWNER	You ask for a change and see it live the same day.

Phone-First Checking PLAYWRIGHT

WHAT IT IS	An automatic check that views every change on phone, tablet, and desktop sizes.
HOW WE USE IT	Before anything goes live we screenshot it at phone, tablet, and laptop widths to make sure it looks right everywhere.
FOR YOUR BUSINESS	Most of your visitors are on phones. A broken phone layout loses customers, so we catch it first.
FOR YOU, THE OWNER	Your site looks right on the device your customers actually use.

Smooth Motion & Polish GSAP + LENIS

WHAT IT IS	The animation tools that make pages scroll and move smoothly.
HOW WE USE IT	We add tasteful motion so your site feels modern and considered, not stiff.
FOR YOUR BUSINESS	A polished site builds trust in the first few seconds.
FOR YOU, THE OWNER	Your site feels high-end without you doing anything.

Design Quality System HALLMARK

WHAT IT IS	A built-in checklist that keeps designs from looking cheap or generic.
HOW WE USE IT	Every page is run against dozens of quality checks before it ships.
FOR YOUR BUSINESS	Your brand looks intentional, never like a quick AI template.
FOR YOU, THE OWNER	You get design you would be proud to put your name on.

Walkable 3D & Property Views THREE.JS + BLENDER

WHAT IT IS	Interactive 3D you can move through, right in a web browser.
HOW WE USE IT	We turn floor plans or property files into a 3D space your visitors can walk through online.
FOR YOUR BUSINESS	Buyers and clients can experience a space before it exists or before they visit.
FOR YOU, THE OWNER	You show off a project in a way most competitors cannot.

03 Social Media & Content

Posted consistently, made to fit each app.

We plan, make, and schedule the content that keeps your business visible, and we shape each post to fit the app it lands on.

One-Place Posting & Scheduling **POSTIZ**

WHAT IT IS	A tool that schedules and posts to all your social accounts from one place.
HOW WE USE IT	We line up your week of content and it posts to each platform automatically at the right times.
FOR YOUR BUSINESS	You stay consistent, which is what actually grows a following.
FOR YOU, THE OWNER	Your accounts stay active even on your busiest weeks.

The Content Engine **MAI + SONNY + VIDZ**

WHAT IT IS	Our system that turns one idea into a full set of posts across platforms.
HOW WE USE IT	One topic becomes a carousel, a reel, captions for each app, and a blog, all in your voice.
FOR YOUR BUSINESS	You get more out of every idea, so content stops being a bottleneck.
FOR YOU, THE OWNER	You approve one idea and a week of posts appears.

Trend & Competitor Watching **SOCIAL LISTENING + RESEARCH**

WHAT IT IS	We watch what is working right now in your space, including competitors' videos.
HOW WE USE IT	Our AI reviews trending posts and reels and reports back what to try, with the why.
FOR YOUR BUSINESS	Your content rides what is already getting attention instead of guessing.
FOR YOU, THE OWNER	You get fresh ideas that are proven to be working, handed to you.

Reading Text From Images SURYA OCR

WHAT IT IS	A tool that pulls text out of screenshots, receipts, and posts.
HOW WE USE IT	We use it to read screenshots and documents so nothing has to be retyped by hand.
FOR YOUR BUSINESS	Less manual data entry, fewer typos.
FOR YOU, THE OWNER	You can send a screenshot and we just use it.

04 Video & Audio

Studio-quality video, made in-house.

We produce video and audio ourselves instead of paying per clip. That means a steady, affordable flow of content for you.

In-House Video Production REMOTION

WHAT IT IS	A system that builds finished, branded video from a script.
HOW WE USE IT	We turn a script into a polished video with your branding, captions, and motion, made repeatable.
FOR YOUR BUSINESS	Consistent video output without per-video editor costs.
FOR YOU, THE OWNER	You get a stream of on-brand videos and never open editing software.

Video Editing & Captions FFMPEG + AUTO-EDITOR

WHAT IT IS	The tools that trim, caption, and clean up video automatically.
HOW WE USE IT	We cut dead air, burn in captions, and mix audio so videos are tight and watchable.
FOR YOUR BUSINESS	Tighter videos hold attention, which is the whole game on social.
FOR YOU, THE OWNER	Your raw footage comes back as a finished, captioned clip.

Your Voice, On Demand VOXCPM2

WHAT IT IS	A tool that can create a clean voiceover in a chosen voice.
HOW WE USE IT	We generate natural voiceovers for videos in-house, with no monthly voice subscription.
FOR YOUR BUSINESS	Narrated video at no extra per-use cost.
FOR YOU, THE OWNER	You get professional voiceovers without recording every line yourself.

Stock Footage, Photos & Music PEXELS + PIXABAY + FREESOUND

WHAT IT IS	Libraries of free-to-use video, photos, and sound.
HOW WE USE IT	We pull background footage, images, and music to fill out your videos legally and cleanly.
FOR YOUR BUSINESS	Polished video without expensive footage licenses.
FOR YOU, THE OWNER	Your videos look produced, not homemade.

05 Graphic & Brand Design

On-brand visuals, made and finished for you.

We create and finish the images your business needs, from social graphics to product shots to brand-new visuals, all kept on brand.

Graphic & Layout Design CANVA

WHAT IT IS	The tool we use to lay out finished, branded graphics.
HOW WE USE IT	We compose carousels, posts, and brand layouts and keep your colors and fonts consistent.
FOR YOUR BUSINESS	Every graphic looks like it belongs to your brand.
FOR YOU, THE OWNER	You get finished graphics, ready to post.

Custom Image Generation FLUX VIA REPLICATE

WHAT IT IS	AI that creates brand-new images from a description.
HOW WE USE IT	When the right photo does not exist, we generate it to fit your content.
FOR YOUR BUSINESS	You are never stuck without the right visual.
FOR YOU, THE OWNER	You describe an image and we make it from scratch.

Photo Cleanup & Background Removal REMBG

WHAT IT IS	A tool that cleanly removes or replaces backgrounds in photos.
HOW WE USE IT	We cut out products or people so they drop neatly into any design.
FOR YOUR BUSINESS	Clean product and team photos make everything look more professional.
FOR YOU, THE OWNER	Send a messy photo, get back a clean one.

Turn a Photo Into 3D HUNYUAN3D

WHAT IT IS	A tool that builds a 3D model from a single product photo.
HOW WE USE IT	We turn a flat product photo into a spinnable 3D model and multiple angles.
FOR YOUR BUSINESS	Show products from every side without a photo studio.
FOR YOU, THE OWNER	One photo becomes a full 3D view of your product.

Branded Design At Scale ADOBE ILLUSTRATOR AUTOMATION

WHAT IT IS	We run brand design templates automatically to produce many on-brand files fast.
HOW WE USE IT	We swap text and images into a brand template and export finished files in bulk, hands-free.
FOR YOUR BUSINESS	Large batches of on-brand material without the hours.
FOR YOU, THE OWNER	You get a whole set of materials, all matching, quickly.

06 Online Stores (Shopify)

We run your whole online store.

If you sell online, we connect to your store and run it, from products to pages to the look, so you can focus on the product instead of the settings.

Full Online Store Management SHOPIFY

WHAT IT IS	We connect to your store and manage products, inventory, pages, and design.
HOW WE USE IT	We audit the store, fix what is off, build a clean look, and keep it updated as you grow.
FOR YOUR BUSINESS	A store that is easy to buy from sells more, with less effort from you.
FOR YOU, THE OWNER	You stop wrestling with store settings. You ask, we change it.

Your Store Dashboard CUSTOM DASHBOARD + REQUEST QUEUE

WHAT IT IS	A simple dashboard where you can see your store and request changes.
HOW WE USE IT	You submit a change from your phone, it lands in our queue, and we handle it.
FOR YOUR BUSINESS	A clear line between you and the work, with nothing lost in chat.
FOR YOU, THE OWNER	You tap a button to request a change and track it, no tech needed.

07 Customer Data, CRM & Email

Your contacts organized, your follow-ups handled.

We keep your customers and leads organized in one place and make sure follow-up actually happens, because that is where most sales are won.

Customer Database & Email BREVO

WHAT IT IS	One place to hold your contacts and send organized email.
HOW WE USE IT	We keep your leads and customers tidy and send newsletters, offers, and follow-ups from here.
FOR YOUR BUSINESS	Your contact list becomes an asset you can actually sell to.
FOR YOU, THE OWNER	Your email stays organized and sending, without you managing it.

Flexible Contact Database NOCODB

WHAT IT IS	A spreadsheet-style database that holds leads, clients, and projects.
HOW WE USE IT	We track every lead and client in a clean, searchable place that connects to the rest of the system.
FOR YOUR BUSINESS	Nothing about a customer gets lost. The whole history is in one place.
FOR YOU, THE OWNER	You can see who is who and where they are at, anytime.

Lead Tracking & Follow-Up HUBSPOT + EMY

WHAT IT IS	A system that tracks leads and makes sure none go cold.
HOW WE USE IT	We log every lead and run the follow-ups so each one gets a real, timely reply.
FOR YOUR BUSINESS	Most sales are lost to slow or missing follow-up. We close that gap.
FOR YOU, THE OWNER	Every lead gets followed up, even when you are heads-down on work.

08 Automation & Research

The behind-the-scenes work, handled.

These are the quiet tools that connect everything and do the repetitive work, so the team spends time on what actually matters to you.

Workflow Automation [MAKE.COM](#)

WHAT IT IS	A tool that connects your apps so tasks happen automatically.
HOW WE USE IT	We wire your tools together so things like new leads, data, and notifications flow without anyone copying and pasting.
FOR YOUR BUSINESS	Repetitive work disappears, and fewer things get forgotten.
FOR YOU, THE OWNER	Routine steps just happen on their own in the background.

Email, Calendar & Files [GOOGLE WORKSPACE](#)

WHAT IT IS	Your everyday email, calendar, and file storage, connected to the team.
HOW WE USE IT	We work inside your Gmail, Calendar, and Drive so scheduling, files, and replies stay in sync.
FOR YOUR BUSINESS	Everything lives where you already keep it, organized.
FOR YOU, THE OWNER	Your inbox and calendar get managed alongside everything else.

WhatsApp Connected To Your AI [WHATSAPP CONNECTION](#)

WHAT IT IS	We connect WhatsApp so your AI can read and reply to messages.
HOW WE USE IT	Messages can be read, searched, and drafted through your AI, so nothing sits unanswered.
FOR YOUR BUSINESS	Customer messages get handled quickly, where your customers already are.
FOR YOU, THE OWNER	Your WhatsApp stops being a pile of unread messages.

Deep Research **MULTI-SOURCE RESEARCH**

WHAT IT IS	A way to research any question across many sources and check the facts.
HOW WE USE IT	We run wide, fact-checked research before big decisions and hand you a clear summary.
FOR YOUR BUSINESS	Decisions get made on real information, not a guess.
FOR YOU, THE OWNER	You get the short answer, with the homework already done.

ONE PARTNERSHIP, EVERY TOOL

You don't buy the tools. You get the people who run them.

Every tool in this guide is part of your Balay ni Bruno & Co. partnership. We run them so you don't have to learn any of it.

Let's talk · balaynibruno.co · admin@balaynibruno.co
