SUMMARY

Founder-operator who builds AI-powered revenue and automation systems end to end. I design and deploy GoHighLevel CRMs, pipelines, and workflows, build AI agents on the Claude API (MCP, webhooks, and integrations), and turn manual lead handling into systems that run on their own and keep the pipeline moving toward collected revenue. I own builds from idea to deployment to documentation, so teams can maintain and scale them.

CORE SKILLS

CRM & Automation: GoHighLevel (pipelines, workflows, triggers, sub-accounts, SMS & email), Make, Zapier, n8n

AI Engineering: Claude API, AI agents, MCPs, Claude Code, prompt frameworks with guardrails, retrieval over company data

Revenue Systems: lead routing, lead scoring, multi-channel follow-up (SMS / email / voice), booking flows, no-show rescue, long-term nurture

Integrations: REST APIs, webhooks, OAuth, GA4, Google Search Console, payment links, logging & error handling

Marketing & Web: email marketing (Brevo, Klaviyo), funnels & landing pages, Meta ads, content systems, Shopify, WordPress, HTML/CSS/JS, Supabase, Netlify

EXPERIENCE

Founder & Lead Systems Builder — Balay ni Bruno & Co.

Current

- Built a **GoHighLevel client-onboarding and lead-routing system** for a US client (JR Signing Services), wired from the moment a lead enters the CRM through tagging, pipeline routing, and automated follow-up.
- Built an **1,800+ contact lead engine** feeding daily email and LinkedIn outreach.
- Designed and run an **AI system of Claude-powered agents** that handle content, operations, and outreach, wired together with MCPs, custom tools, and API integrations.
- Ship client websites and a live **Supabase-backed dashboard** with GitHub-to-Netlify auto-deploy (balaynibruno.co, woodenwoodworks.com, srivierehair.com, jrsigningservices.com, frecciagroup.com).
- Run **email marketing engines** (Brevo drips) and content systems for a roster of paying clients.

Marketing Director — Top Producer Investment Capital

Prior

- Led marketing across email, content, and web; owned campaigns and the reporting behind them.

Operations Manager — Entropy Management / Ryze

Prior

- Built the operating systems and trained the teams that ran them, turning ad-hoc work into repeatable process.

E-commerce & Brand — Crown Limited Supply

Prior

- Managed a Shopify store end to end: listings, brand visuals, and the content that drove sales.

Email & CRM — Dog Connectors / Lead Generation — OMNI

Prior

- Ran email and CRM in Klaviyo and built the sequences that kept subscribers engaged (Dog Connectors).
- Ran LinkedIn outreach with Zopto and Apollo, A/B tested sequences, and warm reply handoff (OMNI).

LEARNING

Anthropic AI courses · Jason Pantana AI Marketing Academy · continuous hands-on building in the Claude ecosystem (agents, MCPs, Claude Code).
