

KW CPA & Advisory Services: what we found, and how we would help

Prepared for your Social Media Manager & LinkedIn Lead Generation Specialist opening · September 16, 2026 · Public checks of kwcpaservices.com

IN ONE PARAGRAPH

The foundation is in place: GA4 and the Meta Pixel are installed, an SEO plugin is configured, and the homepage headline is clear. The risk sits exactly where LinkedIn prospecting leads people. A public search of your domain shows only your home and contact pages, and the name on your site and LinkedIn page is different from the one in this post. Prospects who check you out from LinkedIn need to find a consistent, complete picture.

WHAT IS ALREADY WORKING

- The WordPress site loads over HTTPS with a mobile viewport set.
- GA4 and the Meta Pixel are installed.
- All in One SEO is configured, with a sitemap referenced in robots.txt and structured data present.
- The headline "Build Wealth With Strategic CFO, Tax & Accounting Services" is clear.
- A LinkedIn company page and Instagram are linked from the site.

FINDINGS BY RISK

Search visibility	High	A public search for pages on your domain returned only your home and contact pages. Prospects you meet on LinkedIn will look you up. If your service pages do not appear, the site does less of the selling. Worth confirming in Google Search Console.
Business name	Medium	The site title and LinkedIn page address use "KW Tax & Accounting Services", while this job post uses "KW CPA & Advisory Services LLC". A prospect who sees one name on LinkedIn and another on the site hesitates, and search engines match business names across sources.
Email capture	Medium	We did not see a newsletter or email signup on the homepage. Most LinkedIn prospects are not ready for a call on the first visit. A simple signup keeps them in touch until they are.
Content	Low	The sitemap has sections for pages and media attachments but none for blog posts. Educational posts on taxes and bookkeeping give your LinkedIn content something to link back to, and media attachment pages add little on their own.
Facebook link	Low	The Facebook link uses a numbered profile address rather than a named page address. A named address is easier to share and looks finished.
Footer	Low	The footer copyright shows 2025. A small trust signal for a firm whose business is accuracy.

WHAT WE WOULD DO FIRST

- Build a Sales Navigator prospect list around your ideal clients and referral partners.
- Write connection requests and first messages in a peer voice, and track every conversation and follow up in one sheet.
- Plan a weekly content calendar, and turn the strongest topics into short articles on your site.
- Line up the business name across the site, LinkedIn and Facebook, and confirm your pages are indexed.
- Add a simple email signup so prospects who are not ready yet can stay in touch.

A USEFUL WAY TO START

If you bring us on for this role, the first week includes your first 50 researched prospects in Sales Navigator, each with a note on why they fit, at no extra cost.

WHO WE ARE

Balay ni Bruno & Co. is a small operational support studio. You hire one person and get a team behind them: websites, email, social content, CRM automation and reporting that all speak with one voice.

- For JR Signing Services, a Texas notary signing agency, we built a lead database of 1,800+ contacts and run daily email and LinkedIn outreach.
- RJ ran outbound LinkedIn prospecting at OMNI with Sales Navigator, Zopto and Apollo, including A/B testing.
- We run social content for Freccia Construction, a custom builder in Austin, Texas.

HOW WE CHECKED

Checked from the outside on September 16, 2026: homepage code and headings, tracking tags, robots.txt and sitemap, structured data, linked social profiles, a public site search of your domain. We did not log in to anything and we have no access to your analytics or ad accounts, so anything below marked not checked is exactly that.

- Your GA4 and Search Console data.
- Your LinkedIn page analytics and connection history.
- Page speed scores, because Google's PageSpeed service did not respond during our check.
