

A note for Andres De Pina

Prepared for Andres De Pina, RE/MAX ONE, The Woodlands · September 11, 2026

WHO WE ARE

We are a small operational support studio. Real estate is not new to us, we built the website, content, and AI systems behind Real Cavalry, a San Antonio brokerage, ran a two-year marketing partnership with a Texas real estate investment firm, and built the email and CRM systems behind a real estate closing company. That is the same work we would bring here: the content, the follow-up, and the systems that keep a pipeline warm between closings.

WHAT WE NOTICED ABOUT ANDRES DE PINA

You are already doing real things well:

- 781 posts and around 1,944 followers on Instagram is a sustained content habit. Most agents quit long before that, so you will clearly do the work rather than outsource it and forget it.
- Working in English and Spanish across The Woodlands, Conroe, Spring and Magnolia is a real edge in that market, with a licence going back to 2006 behind it.

Where we see the fastest room to grow:

- The site has no blog and no market content at all. Nothing on it would surface in a search for anything except your own name, so people have to already know you to find you.
- The whole audience lives on Instagram, which means it is rented. If reach drops, the following does not come with you, and nothing there points back to something you own.

WHAT WE WOULD DO FIRST

Turn what you already post into pages that can be found. The same material rewritten as neighbourhood and market pages on your own site, in both languages, would start bringing people who have never heard of you. Same effort, but it compounds instead of disappearing down the feed.

THE SIMPLEST NEXT STEP

A short call, no pitch deck required, just to see if this is a fit. You can also see exactly how we work, and the real estate systems we have already built, at balaynibruno.co/real-estate-agent-marketing.html.
