

A note for Jill Wente

Prepared for Jill Wente, Better Homes and Gardens Real Estate Gary Greene, Spring · September 11, 2026

WHO WE ARE

We are a small operational support studio. Real estate is not new to us, we built the website, content, and AI systems behind Real Cavalry, a San Antonio brokerage, ran a two-year marketing partnership with a Texas real estate investment firm, and built the email and CRM systems behind a real estate closing company. That is the same work we would bring here: the content, the follow-up, and the systems that keep a pipeline warm between closings.

WHAT WE NOTICED ABOUT JILL WENTE

You are already doing real things well:

- You did what almost no agent does: built Discover Spring Texas as your own branded property rather than renting space on the brokerage site. It ranks on its own, and it is yours.
- The market reports are real local reporting, not recycled filler. Pending sales up 19 percent, new listings up 14 percent, the move to a balanced market. That is why people come back.

Where we see the fastest room to grow:

- The market reports have slowed right down. The newest is 11 December 2025, and before that September 2025. The engine is built and running well below what it could do.
- There is no email capture anywhere on the site. Six active social platforms, a content site people find on their own, and every reader leaves without you having any way to reach them again.

WHAT WE WOULD DO FIRST

Put a capture underneath the market reports you are already writing, then get them back to a steady rhythm. You have the audience and the writing ability already. What is missing is the one step that turns a reader into someone you can reach again.

THE SIMPLEST NEXT STEP

A short call, no pitch deck required, just to see if this is a fit. You can also see exactly how we work, and the real estate systems we have already built, at balaynibruno.co/real-estate-agent-marketing.html.
